

RAMANI ONLINE

*The Online Platform for hosting and accessing
your geospatial data and Ramani's extensive library*

Rich Datasets

- Historical aerial imagery
- 3D Models (LiDAR & Imagery)
- Structured Vector Data
- 360 Panoramic Images
- Thematic Layers

Multiple Access Channels

- Explore **Ramani Portal** through your browser
- Connect to **Ramani Web Services** in your GIS software
- Integrate **Ramani API** & Embedded Map to build great custom applications

Fast Access

- Optimized Architecture
- Light application
- Short loading times
- Smooth navigation

Powerful Tools

- Layer Control
- Measure
- HD Print
- Swipe To Compare
- Edit
- Analytical Tools

Easy To Use

- User friendly interface
- Standard tools icons
- Responsive design
- Click to Share
- Customizable

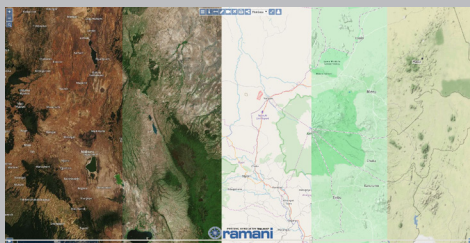

Maps At Your Fingertips

Ramani Aerial

Up to date, very high resolution
(up to 5cm) aerial photography

Satellite Imagery & Base Maps

Rich satellite imagery & base maps
(Digital Globe, Sentinel, OSM...)

Ramani Maps

Accurate GIS layers created by
Ramani with POI, Height, Labels...

Ramani GroundView360

Detailed spherical ground-level
imagery taken with the XCamG Camera

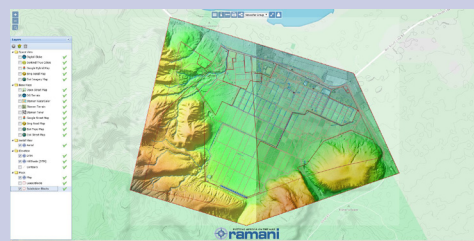

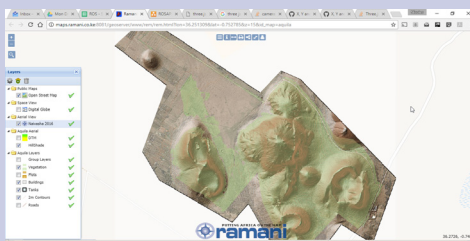

Ramani Elevation

Elevation Models, Contours and
Hillshade created from Ramani LiDAR

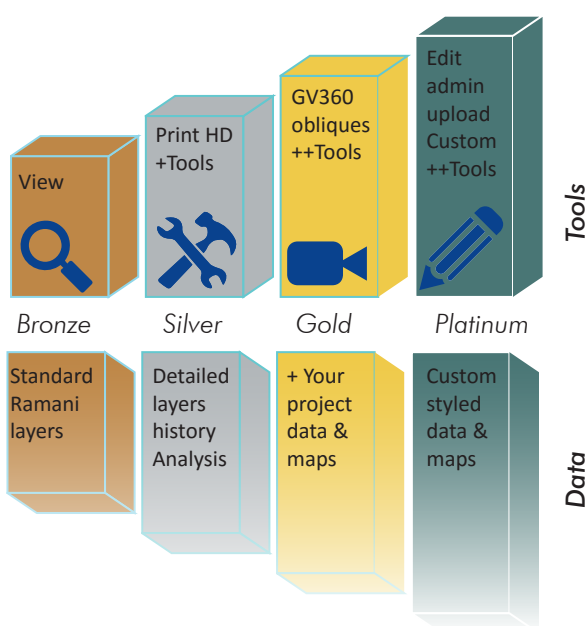

Ramani Oblique Imagery

Angle-view images to measure and
analyse vertical features

Get quick and easy access to your project data from the office or field, build mash-ups
with global basemaps and create amazing dynamic maps!
